

Community Emergency Response Team (CERT) is a volunteer group of people within a community or workplace that has been trained through FEMA guidelines to save life and property. As we all know, all the First Responders, Fire Dept, Law Enforcement, Ambulance companies, will be overwhelmed within the first 5 minutes of a major disaster. It is up to each individual and family to be prepared and be able to take care of themselves for at least 3 days. The CERT Program will teach the participants how to do this. The scope of this course includes: Disaster Preparedness, Fire Safety and Hazardous Materials, Disaster Medical Operations, Light Search and Rescue, CERT and the Incident Command System, Disaster Psychology, and Terrorism.
